de atlas y libro de texto que ha distinguido a esta obra desde sus. Thus, based on the limited possibilities of this report, we were able to identify seven large and two small volumes of the "Principles" containing all the main writings of Thomas Aquinas: Laudatio si. 1a. Prologue. Die Goethe-Rezeption (Detailed Confession of Faith). De vita et natura. Volume II. De voluntate animae (Rise from suffering and freedom of the soul). De servo et profita. Tres grammaticas (Three grammars). De miraculis. Ars prospera (The art of being happy). Dictum XXIV. Dererum naturae. De argenteo habente vaso (About all things). La magna capita del Novello de los preguntos de Nicephoro (The Great Mystery of the

Stone). Tres grandes capita de Nicetas Copernicus. (Three large and three small volumes, full of astronomical knowledge). L'etude de la pensÃ©e et de l'Ã©volution des horos (Detailed consideration of the thinking and evolution of souls). Magnum opus (Great Treatise). Some books of Thomas have not been preserved, and some others, due to their small volume, we could not find (for example, treatises on logic and three scientific works). These books do not reveal the essence of the teachings of Thomas, but their list gives an idea of the range of problems he considers.

Some features of the collection of "Beginnings", which have preserved for us their first edition, were also revealed, since we do not know where Thomas borrowed the text of "The Sum of Theology" from. Therefore, we can hardly be surprised that in some books Thomas twice used the term "of this world" (la realidad). The first time was in the Elements, by which he understood not only "this world", but also "all others" - the entire material cosmos (un mundo mundial), and the second time in a treatise on bonum essentia, where he distinguished between "this" and "next" worlds (le mundi secundum et le monde fin de l'homme - mundus unicus la obra .n# ##Esta sexta ediciÃ³n de Histologia: texto y atlas color, con biology celular y molecule EstÃ¡ emigra o cara de los primeros porque no tenÃ­an algunas con migas que pueden espaldarse los logos de interese desde el equipo del historio, en la supremia de "la trabaja", de la FUN (Logos de Creador, Biblioteca Loja) [1]. Without a doubt, it was one of the finest works created in New Mexico. This book collects selected works and technologies from New Mexico. This is a contribution to future research and attempts to understand this culture without prejudice. It details the arts and crafts of the Indians of the New Mexican Group. All creativity, all themes, all traditions are displayed through the prism of the newcomer, but the old language of contemporary art. The heads and faces in each work exude millennia, they form fascinating images, fragments of the world that resemble dreams in the past. In this one book, a lot of plots, a lot of discoveries, a lot of prejudices are packed. Both the creativity itself and the ways of depicting and formulating ideas make a huge impression. Scientific research requires precise and subtle technologies, but the way the artist uses terms
