Videos Ragnarok Online Deathlord By D-D-D-D-D-D-D-Donalds: Older Businesses: Your Business Listing Is Available See: https: Listsmybusinessbusinessand franchises by searchers in It can be done. This is a single page site template. It is built on a Magento theme with Bootstrap as the front-end framework. It is very easy to edit and modify to suit your website needs. It is responsive (optimized for all browsers). Further information can be found here:Q: Prolog - List comparison I am new to prolog. So I am building something like a list comparison where I have one list and try to find a another list that is a subset of this. I've made a list like this: subsetlist(A,B) :- term(B,A). That works as a filter but I'm struggling with this part: (size(subsetlist([A, B, C, D], [Z, Q, W, U, V, X, Y, S, T, F, O])) = > 0) That returns false always, which should be true. Is this even possible without using if and looping through all elements in the list? A: The problem is that your predicate is called subsetlist/2, while the predicate you want to compare to it is called substring/2. The most natural way to write this would be subsetlist(A,B) :- term(B,A). substring(Z,Q,W,U,V,X,Y,S,T,F,O) :- substring(Z,Q,W,U,V,X,Y,S,T,F,O). which gives the desired result. Q: How to set transition-duration in CSS I'm trying to figure out what is wrong in the CSS that I set a transition to a link. I'm trying to do a vertical spinner animation when the user clicks on the link, so I added a transition-duration to the.vertical-spinner animation, but it's not working. Here is the CSS: @keyframes spinner { from {
